

Hydrostatic Core Holder

The C&CO Services Core Holders are the best choice of your laboratory. Their excellent design and performance make of the Core Holders the ultimate tools for porosity and permeability analysis. The C&CO Services Core Holders can be used horizontally or vertically according to your preference and can be mounted on stainless support or an aluminum socket.

Their unique design allows the used to work at high temperatures and pressures, as well as to be able to flow water, oil, nitrogen, helium and brine.

FEATURES

- High Pressures and Temperatures
- Easy to open and close
- 316 Stainless Steel Construction
- Needle Valves
- Manometers and Electronic Transducers
- Horizontal and Vertical Operation
- Well Finished, Durable and Productive

SPECIFICATIONS

- Core Size:** 1", 1.5", whole core diameter
- Plot Length:** 0.5" to 3" other lengths available
- Confining Pressure:** up to 10.000 psi
- Work Temperature:** Ambient to 300°F
- Working Fluid:** Helium, Nitrogen, Brine, Oil, Water
- Pumping-Flow Systems:** Manual ENERPAC® 10.000 psi
